***Allowable Subject Matter***

Claims 1-5 and 12 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest an angled electrode, which is a printed electrode, between electrode layers. While the prior art shows spear tip electrodes, with an angle from a lower surface and an angle from an upper surface forming a tip, this configuration doesn't meet the requirement as there are two angles and the applicants' invention teaches a single angle to a surface for the advantageous reasons of reduction of separation between the parts. The prior art fails to provide for a printed electrode and a single angled portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***EXAMINER'S AMENDMENT***

The application has been amended as follows: Cancel claims 6-11. These are canceled as they are the non-elected claims and cancellation is required for the case to issue.

Direct inquiry to Examiner Dougherty at (571) 272-2022.
